

Fraud Escalation Playbook

Category: Compliance | Department: Fraud & Financial Crime | Created: 2025-05-02

Overview

This playbook defines how Aurora Trust Bank escalates suspected fraud cases across severity tiers. It complements the Anti-Money Laundering Monitoring Policy and applies to all channels, including card, wire, and online banking fraud alerts.

Escalation Steps

- Alert is triaged by the fraud analyst on duty within 30 minutes of generation.
- Confirmed fraud is assigned an escalation tier based on exposure amount (see table below).
- Tier 2 and Tier 3 cases require sign-off from the named approver before funds are released or blocked permanently.
- All escalations are logged in the case management system with a resolution deadline.

Escalation Tiers

Tier	Threshold Amount	Required Approver
Tier 1	Up to 1,000 units	Fraud Analyst
Tier 2	1,000 - 25,000 units	Fraud Team Lead
Tier 3	Above 25,000 units	Head of Fraud & Financial Crime
